WORK EXPERIENCE

Outlier AI - India Managed Workforces | Remote

AI Evaluation Contributor - Perseus Eval | Aug 2026 - Present

- Designed and reviewed multi-step benchmarks for tool-using AI agents across simulated applications and connected data, covering research, citation verification, translation, information retrieval, and cross-source reasoning.
- Built deterministic ground truth and **10–15 atomic evaluation criteria per task** across factuality, instruction following, tool use, agent behavior, and task completion; validated end-to-end trajectories against source records.

AI Evaluation Contributor / Reviewer - ZAM JAM | Jun 2026 - Aug 2026

- Progressed from contributor to reviewer while creating prompts, ideal answers, and atomic rubrics for multimodal evaluation across **4 reasoning areas**: temporal reasoning, event sequencing, counting, and visual grounding.
- Reviewed model responses and evaluation criteria for accuracy, answerability, instruction following, and scoring consistency; documented failure patterns and quality issues for reproducible assessment.
