WORK EXPERIENCE

Outlier AI - India Managed Workforces

Remote

AI Evaluation Contributor - Perseus Eval

Aug 2026 – Present

- Designed multi-step benchmarks for AI agents using simulated applications and connected data, covering research, citation verification, translation, retrieval, and cross-source reasoning.
- Defined ground truth and **10–15 atomic evaluation criteria per task** for factuality, instruction following, tool use, agent behavior, and task completion. Verified complete agent trajectories against source records.

AI Evaluation Contributor / Reviewer - ZAM JAM

Jun 2026 – Aug 2026

- Progressed from contributor to reviewer and created prompts, ideal answers, and atomic rubrics across **4 reasoning areas**: temporal reasoning, event sequencing, counting, and visual grounding.
- Reviewed model outputs and evaluation criteria for accuracy, answerability, instruction following, and scoring consistency. Documented recurring failure patterns for reproducible assessment.

PROJECTS

Instagram - Real-Time Social Media Platform

Live

MongoDB, Express.js, React.js, Node.js, Redux, Socket.io, JWT, Cloudinary, Tailwind CSS

- Built a full-stack MERN social platform with **9+ features**, including authentication, profiles, posts, search, follow/unfollow, real-time chat, and online presence.
- Developed RESTful APIs, JWT authorization, MongoDB relationships, and Socket.io messaging. Added a Multer/Sharp pipeline that resized uploads to **1080x1080** before Cloudinary storage.

FoodDash - Modular Food Delivery System

Live

MongoDB, Express.js, React.js, Node.js, JWT, Mongoose, Redux, Socket.io, Tailwind CSS

- Designed **6+ service modules** and MongoDB schemas for **12+ entities** across users, restaurants, menus, carts, orders, delivery, authentication, sessions, and payment data.
- Implemented bcrypt hashing, JWT authorization, request validation, and role-based access control. Built reusable React flows for menu browsing, checkout, and order tracking.

NetflixGo - OTT Content Discovery Platform

Live

MongoDB, Express.js, React.js, Node.js, TMDB API, JWT, Tailwind CSS

- Integrated the third-party TMDB API into a MERN application with **7+ features**, including JWT authentication, protected routes, search, trailer playback, watch history, loading states, and custom 404 handling.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript

Backend and Web Services: Node.js, Express.js, RESTful APIs, API Development, Web Services, JWT, Middleware, Socket.io

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Databases: SQL, MySQL, MongoDB, Mongoose, Schema Design, CRUD Operations

Software Engineering: Data Structures and Algorithms, Object-Oriented Programming, Technical Design, Debugging, Code Review, Unit Testing, API Testing, Troubleshooting, Modular Code

Tools: Git, GitHub, Postman, VS Code, Cloudinary, Multer, Sharp

ACHIEVEMENTS

- Completed **1024+ LeetCode problems** in Data Structures and Algorithms and earned the **1000 Days Active Badge** for consistent practice since Aug 2023.
- Reached a **LeetCode max rating of 1686** across **90+ coding contests** and secured **Global Rank 31,427**, placing among the **top 1% of profiles by problem count**.
- Earned a **3-Star CodeChef rating** with a maximum rating of **1654** after 100+ problems. Ranked **3rd at institute level on GeeksforGeeks** with 160+ completed problems.

EDUCATION

Chaudhary Devi Lal State Institute of Engineering and Technology | Sirsa, Haryana

B.Tech in Computer Science Engineering | CGPA: 7.93/10.0 | Aug 2024

Vaish Model Senior Secondary School, CBSE Board | Bhiwani, Haryana

Class XII | PCM with Computer Science | 87.2% | Jul 2020

Vaish Model Senior Secondary School, CBSE Board | Bhiwani, Haryana

Class X | 82.17% | May 2018
